After successful completion of each course, every participant will receive a certificate of participation. Furthermore there is the possibility of graduating with a Certification Exam in Visceral Therapy. For this it is needed to pass three examinations.

First, the Abdomen Exam and the Thorax Exam can be taken in whichever order and after these the Certification Exam can be taken.

For the Abdomen Exam the requirement is the Extension Course Abdomen and for the Thorax Exam the Extension Course Thorax.

The exam comprises an oral examination as well as a theoretical and a practical examination. In case of not passing parts of the exam (oral, theoretical or practical) this part can be repeated for free at the next exam.

Experience has shown that the preparations and the exams deepen the knowledge and the practical experience of the contents already acquired.

Abdomen Exam

REQUIREMENTS:

- Successful completion of the Extension Course Abdomen
- Registration for Abdomen Exam
- To prepare yourself for the exam you can request the abdomen catalogue of questions and sample protocols for giving and receiving treatments. Send your request to: info@visceral-therapy.com.
- 50 short protocols of giving treatments for the digestive tract and 50 short protocols of giving treatments for the urogenital tract in interaction with the musculoskeletal system. A sample protocol will be provided.
- 1 detailed case study of the proper procedure for a series of treatments given to one patient for the whole abdomen.
What should this case example include? Case history, therapy order, diagnosis concerning Visceral Therapy, used techniques, course of treatment, changes after treatment with Visceral Therapy, personal therapist commentary and perhaps a recommendation for the patient.
- 5 short protocols of receiving treatments for the digestive tract and 5 protocols of receiving treatments for the urogenital tract. A sample protocol will be provided.
- 1 detailed personal report (i.e. reflection of personal experiences) of receiving these treatments. What had to be treated, how was the reaction and what are the personal results = self reflection.

All written documents have to be typed and bound or tacked and should include the name, address, telephone number and email address of the participant and should be sent at latest 4 weeks before the examination date.

EXAMINATION PROCEDURE

During several hours of examination the content of the courses Lesion Chain Digestive Tract - Spine, Lesion Chain Urogenital Tract - Hip/Spine and Extension Course Abdomen are evaluated by oral, theoretical and practical means. At the end, the participant, the examiner and the observer jointly reflect on the examination. When the examination has been successfully passed, the participant receives a certificate for the Abdomen Exam.

The examination team consists of an examiner and an observer.

Thorax Exam

REQUIREMENTS:

- Successful completion of the Extension Course Thorax
- Registration for Thorax Exam
- To prepare yourself for the exam you can request the thorax catalogue of questions and sample protocols for giving and receiving treatments. Send your request to: info@visceral-therapy.com.
- 50 short protocols of giving treatments for thorax, throat, brain, vagus nerve and phrenic nerve in interaction with the musculoskeletal system. A sample protocol will be provided.
- 1 detailed case study on giving a series of treatments to one patient for the thorax, throat, brain and nerves. What should this case study include? Case history, therapy order, diagnosis concerning Visceral Therapy, techniques used, course of treatment, changes after treatment with Visceral Therapy, personal therapist commentary and perhaps a recommendation for the patient.
- 5 short protocols of receiving treatments for the thorax, throat, brain and vagus nerve and phrenic nerve. A sample protocol will be provided.
- 1 detailed personal report (i.e. reflection of personal experiences) of receiving these treatments. What has been treated, how was the reaction and what are the personal results = self reflection.

All written documents have to be typed and bound or tacked and should include the name, address, telephone number and email address of the participant and should be sent at latest 4 weeks before the examination date.

EXAMINATION PROCEDURE

During several hours of examination the content of the courses Lesion Chain Thorax - TSP/CSP and Extension Course Thorax are evaluated by oral, theoretical and practical means. At the end, the participant, the examiner and the observer jointly reflect on the examination.

When the examination has been successfully passed, the participant receives a certificate for the Thorax Exam. The examination team consists of an examiner and an observer.

Certification Exam

REQUIREMENTS:

- Successful completion of Abdomen Exam and Thorax Exam (random order)
- Registration for Certification Exam
- 50 short protocols of giving complete treatments (abdomen, thorax, throat, brain and nerves). A sample protocol will be provided - write to info@visceral-therapy.com.
- 1 detailed case study of a complete series of giving treatments (abdomen, thorax, throat, brain and nerves) to one patient. What should this case study include? Case history, therapy order, diagnosis concerning Visceral Therapy, techniques used, course of treatment, changes after treatment with Visceral Therapy, personal therapist commentary and perhaps a recommendation for the patient.
- 5 short protocols on receiving complete treatments (abdomen, thorax, throat, brain and nerves). A sample protocol will be provided - write to info@visceral-therapy.com.
- 1 detailed personal report (i.e. reflection of personal experiences) on receiving these treatments. What had be treated, how was the reaction and what are the personal results = self reflection.

All written documents have to be typed and bound or tacked and should include the name, address, telephone number and email address of the participant and should be sent at latest 4 weeks before the examination date.

EXAMINATION PROCEDURE

During this last exam a complete treatment of a patient or colleague will be carried out comprising case history, diagnosis to verify the anamnesis, treatment of the lesion chain and conclusion.

At the end, the participant, the examiner and the observer jointly reflect on the examination.

The reflection includes: case history, diagnosis, chosen approach, integration and conclusion.

The participant receives the certificate by proving the competent and effective use of Visceral Therapy in interaction with the musculoskeletal system.

When the examination has been successfully passed the participant receives a certificate for the Certification Exam in Visceral Therapy.
